

**REDUCE
COSTS**

**RECYCLE
WASTE**

**REUSE
TECHNOLOGY**

Recycling has its rewards.

When keeping data safe is your main priority, look no further than MRK. We provide personalized service for all of your IT Asset Disposition and electronics recycling needs. Organizations nationwide depend on us to shred old hard drives, tapes and other media, and manage their excess and obsolete technology. We do it quickly and responsibly.

Our Services Include:

- Computer Recycling
- End-of-Life Management
- Asset & Lease Recovery
- Storage and Logistics
- Nationwide Pickup
- Redeployment
- Onsite Hard Drive Destruction
- Remarketing and Parts Harvesting
- Data Destruction (Shredding)
- Charity and Employee Sales
- Collection Events

Our new mobile hard drive shredder can rip through up to 2,000 drives per hour – saving you time and money.*

MRK is fully compliant with all State and Federal regulations and is R2 Certified, ISO 14001 Certified and OHSAS 18001 Certified. R2 certification shows MRK's commitment to higher quality standards for its end of life Recycling processes.

So, whether you have 100 PC's to recycle or 10,000 hard drives to shred, we have the resources and knowledge to get the job done simply and economically.
